City & Guilds Technical Award in Digital Technologies

This qualification allows you to explore how digital technologies are used in everyday life.

If you are interested in how information is communicated in different ways, why we use networks, what to consider when creating web pages and how you can ensure data you gather is of good quality, then this qualification is for you

You will study the concepts and features of application software programmes and networks. You will explore the features available across different types of software and tools. You will understand concepts of text formatting and file manipulation to develop creative technical skills in digital technology. You will also understand how data can be gathered and used to make decisions, to analyse and present structured data which has been gathered from primary and secondary resources.

Units

Principles of Digital Technology

Digital Technology communications

Creative use of Digital Technologies

Collection & use of data
