

Work Experience

Work Experience placements are optional at RDUTC, but strongly encouraged.

Placements are co-ordinated by the Heads of Human Resources from our Employer Partners and take place during school holidays to prevent negative impact on academic teaching and learning.

Work experience placements are advertised by employer partners on the RDUTC Jobs Board in the Careers Zone and on the RDUTC website.

Students apply for placements and a formal selection process is followed, which mirrors the usual recruitment process of each employer partners.

Students are able to apply for multiple placements with different employers.

Disclaimer:

RDUTC allows employer partners to advertise the work experience placements in its Careers Zone and on its website. Employer partners may also book facilities at RDUTC to carry out interviews. The work experience placements are completely independent of RDUTC, however, and the school has no involvement in the selection process or responsibility for students whilst on their placement.
